

CAKE POP 101

What is a Cake pop? Cake pop is a delectable little ball of cake, encased in a smooth candy shell, sitting atop a stick. The good news is that if you're trying to be mindful of what you eat, Cake Pops only last a bite or two... but that's also the bad news!

CARE FOR YOUR CAKE POPS?

- 10** Cake Pops are fresh for up to ten days
-  Store at room temp
Do not refrigerate or leave them in the heat
